

Author Guidelines

Thank you for your interest in publishing your article as a peer-reviewed paper in Thermal Spray Bulletin. The publication is free of charge to you. An article for the PEER-REVIEWED PAPER section will be reviewed by our permanent expert board. Please note the following before submitting your article in English or German.

External Form

- For one language maximum six pages or 20,000 characters (including spaces)
- Maximum of eight figures or tables
- Professional short curricula vitae (for publication on our website, approx. five to ten lines), e-mail addresses and digital portrait photo of all authors
- Document as Word file (if non-alphabetic symbols are used, please also submit PDF)
- Distinguish between figures (photos, schematic diagrams and charts) and tables. They should be placed underneath the article together with the captions and table headings. List the copyright with each caption (e. g. Source: IOT Aachen)
- Send all figures separately as JPG, PNG or TIFF data in a high resolution, 300 dpi minimum
- no abbreviations
- Names, designations, etc. according to the latest standards, DVS guidelines, etc. and no designations such as ©, ™ or ®.

Structure

- Title of the article (short and clear).
- Title, first and last name of all authors, institute and location (e.g.: Prof. Dr.-Ing. Hans Sample, Sample University, Sample City).
- Abstract of the content, appr. five to ten lines
- Actual paper, structured according to the decimal classification, beginning with "1. Introduction" and ending with "References"
- Indicate references in paper with [1], [2] etc. and summarised at the end: (e. g.) [1] Rodriguez Diaz, M., Nicolaus, M., Möhwald, K., Maier, H. J.: Thermal spraying in silane-doped shielding gases: A new approach for innovative coatings in controlled process atmospheres, Thermal Spray Bulletin, Vol. 14 (2021) No. 2, pp. 120/7.
